Cadeler signs firm contract with Synera Renewable Energy for WTG Installation at the Formosa 4 Offshore Wind Farm in Taiwan

Copenhagen, 22 August 2025 - Cadeler today announces that it has signed a firm contract with Synera Renewable Energy (SRE) for the transportation and installation (T&I) of 35 Siemens Gamesa 14MW wind turbines at the Formosa 4 Offshore Wind Farm in Taiwan. The project will be executed by one of Cadeler's next-generation M-class wind turbine installation vessels.

The T&I operations are set to commence in March 2028 and will last approximately 150 days. The revenue from this contract to Cadeler is projected to be between EUR 70 and 80 million.

Today's announcement reflects the execution of a firm contract for a portion of the work contemplated by the reservation agreement Cadeler disclosed in September 2024, which secured two offshore wind projects in the region. Negotiations are ongoing with respect to the second of such offshore wind projects. Cadeler's partnership with SRE on these projects represents a further step forward in Cadeler's long-term strategy to advance offshore wind in the Asia-Pacific, supported by the company's local office in Taipei.

Located 18 to 20 kilometres off the coast of Miaoli County, Formosa 4 will span an area of 58 square kilometres, with turbines installed at water depths between 57 and 64 metres. Upon completion, the wind farm will provide 495 MW of clean offshore energy, contributing significantly to Taiwan's green energy supply.

Mikkel Gleerup, CEO of Cadeler, comments: *"This milestone project further anchors Cadeler's strategic presence in the Asia-Pacific region. With the support of our team based in Taipei, we are steadily building up our APAC presence and pipeline, with two vessels currently operating contracts in the region. With an M-class vessel, we are bringing best-in-class technology to Taiwan's shores, building a bridge between continents and the infrastructure for a cleaner tomorrow."*

About Cadeler:

Cadeler is a global leader in offshore wind installation, operations, and maintenance services. Cadeler is a pure play company, operating solely in the offshore wind industry with an uncompromising focus on safety and the environment. Cadeler owns and operates the industry's largest fleet of jack-up offshore wind installation vessels and has for more than 10 years been a key supplier in the development of offshore wind energy to power millions of households. Cadeler's fleet, expertise and capacity to handle the largest and most complex next-generation offshore wind installation projects positions the company to deliver exceptional services to the industry. Cadeler is committed to being at the forefront of sustainable wind farm installation and to enable the global energy transition towards a future built on renewable energy. Cadeler is listed on the New York Stock Exchange (ticker: CDLR) and the Oslo Stock Exchange (ticker: CADLR). For more information, please visit www.cadeler.com
